

Sun City Summerlin Computer Club

Waiver of Liability and Indemnity Agreement

By affixing my name to this form, I certify that I am a current member in good standing of the Sun City Summerlin Computer Club. I also attest that the equipment for which I am applying for free service is owned by me (or by a fellow member in good standing of the Computer Club.)

Further, I acknowledge that at my specific request, volunteer members of the Hardware Special Interest Group (SIG), on the date indicated below, agree to assist me in the performance of certain services for the purpose of repairing or correcting malfunctions related to my computer and/or its peripherals.

Members of the Hardware Group may also assist with the installation of both hardware and software modifications and/or improvements to the said unit(s). I agree to provide all required materials at my expense, including, but not limited to, all manner of hardware, cabling, and software that may be required. [Note: it is a violation of the Copyright laws to install software that is not licensed to the user.]

I understand that the Hardware Group volunteers are not professional technicians and that the expertise and services provided are offered at no charge as a courtesy to SCSCC members.

I specifically and freely waive any and all claims against the Hardware Group, the Sun City Summerlin Computer Club, and the Sun City Summerlin Community Association for any damages arising from any services rendered by any Hardware Group volunteer(s). Damages may include, but are not limited to, computers, peripheral equipment, software, loss of data, or erroneous information or advice.

I am aware that computers and/or peripheral equipment may be of considerable weight and bulk, and that there is an inherent physical danger in the process of transporting those items to and from the Computer Club's facility. I agree that I will hold harmless the Hardware Group, the Sun City Summerlin Computer Club, and the Sun City Summerlin Community Association in the event of any physical injury sustained to either my person or equipment during the aforementioned process of transportation.
