

Advanced Macintosh Training Class of Mac OS X 10.4.x (TIGER) Course A

The course consists of 4 sessions from 6:30-8:30 PM, Computer Lab., Pinnacle Community Center, on the FIRST AND THIRD WEDNESDAY OF THE MONTH.

Registrations are now being accepted for the:

JAN-FEB SESSIONS

MAR-APR SESSIONS

To register, send an email message to:

scsc_macintosh_training_seminar@yahoo.com. Include your first and last name, association number, and course and sessions desired. Registration is required due to the limited seating in the computer lab.

Class Instructor Jim Maher will acknowledge your registration by return e-mail.

The text book being used will be Maria Langer's "MAC OS X TIGER- Visual Quickstart Guide" which will be available for purchase by personal check of \$18 (book discounted from \$25) at the first session. The personal check payable to "SCSCC" with the notation "Macintosh Book". PLEASE ARRIVE BEFORE 6:30 PM ON THE DAY OF THE FIRST CLASS TO PURCHASE THE TEXTBOOK.

The textbook is 700 pages, so we will not be able to cover all the material in the book. The book was chosen because of its visual quickstart guide design. It provides step-by-step instructions, with plenty of illustrations (screen shots) and a generous helping of TIPS.

The layout of the book is for "page flipping", with thumb tabs on the page edges, and both an extensive index and table of content. The book has a companion website at: www.langerbooks.com/macosquickstart/

The Chapters we will cover in the Macintosh OSX 4.x TIGER class are:

Session 1:

Chapter 1 Setting Up Mac OS X 10.4 (pages 1-14)

Chapter 2 Finder Basics (pages 15-40)
Chapter 3 File Management (pages 43-67)

Session 2:

Chapter 4 Advanced Finder Techniques (pages 73-91)
Chapter 5 Using Mac OS Search Features (pages 93-101)
Chapter 7 Application Basics (pages 125-150)
Chapter 8 Using Mac OS X Applications (pages 153-215)

Session 3:

Chapter 10 Dashboard (pages 239-257)
Chapter 12 Printing & Faxing (for some models) (pages 279-312)
Chapter 13 Connecting to the Internet (pages 313-352)
Chapter 15 Using Sherlock and / or Searchlight (pages 395-414)

Session 4:

Chapter 21 System Preferences (pages 577-633)
Chapter 22 Mac OS Utilities (pages 635-670)
Chapter 23 Getting Help (pages 671-677)

We will have a brief review of the previous session's chapters prior to covering new material in the current session.
